Michaela Kirchhoff, RRT, RPSGT

Respiratory Therapist and Polysomnographic Technologist

Michaela ("Shellie") Kirchhoff's expertise and experience as both a registered respiratory therapist and a registered polysomnographic technologist combine to provide outstanding care to CSI sleep study patients. As a vital sleep team member she maintains and enhances the health and well being of CSI sleep patients by conducting patient education and coaching, and addressing patient care and compliance needs with CPAP Therapy.

Kirchhoff has been a key part of the CSI clinical team for 14 years, making important contributions to the growth, success and consistent quality of patient care at CSI. Prior to joining CSI she served as a registered respiratory therapist with a durable medical equipment supplier and a medical specialty care facility.

She attended Fontbonne University in St. Louis, majoring in special education and received her Associate in Applied Science Degree in Respiratory Care from St. Louis Community College.
